

The work can look ready. The system can still fail.

MJ EcoStream identifies and remediates hidden Security Inbox, vendor, OSCAL, and documentation gaps before they put funding, deals, or eligibility at risk.

WHAT WE DO

● **Mandate Interpretation**

Translate new federal and HUD-connected mandates into plain-English next steps.

● **Gap Review**

Surface Security Inbox, vendor, OSCAL, and workflow gaps before reviewers do.

● **Readiness Dashboard**

Live executive view: Ready, Needs Action, At Risk — by domain and owner.

● **Remediation**

Drive fixes while they are still cheap, and coordinate with 3PAOs when required.

FIRST 30 DAYS

WEEK 1

Scoping + Mandate Briefing

1-hour exec consultation, scoped plan, mandate brief.

WEEK 2

Gap Review

Exposure map across inbox, vendor, OSCAL, workflows.

WEEK 3

Readiness Dashboard

Live Ready / Needs Action / At Risk view.

WEEK 4

Remediation Plan

Prioritized fixes with owners, sequencing, 3PAO path.

WHO IT AFFECTS

Borrowers · Developers · CSPs · Software Vendors · Property Managers · Housing Authorities · Contractors · Subcontractors · Lenders · Compliance Teams · Program Partners

Independent Compliance Consultant — not a FedRAMP-recognized 3PAO. We prepare the entity before the formal review starts.

Make MJ EcoStream the first call.

Readiness and remediation — before the formal review starts.
